Estimados colegas de las Ciencias del Comportamiento,

Bienvenidos a la Red Latinoamericana de Ciencias del Comportamiento, iniciativa que nació, luego de una gestación que duró varios años, en el 17 Meeting of the International Society for Comparative Psychology, Bogotá, septiembre de 2014.

El objetivo de esta red virtual es servir de espacio de encuentro interdisciplinario para la cooperación en ciencias del comportamiento para los investigadores especialmente, pero no únicamente, en Latinoamérica. No se trata de una asociación formal y permanecerá en constante perfeccionamiento.

Invitamos a todos los investigadores en ciencias del comportamiento a aprovechar este espacio para lograr una mayor presencia latinoamericana en el concierto internacional del área.

Esta lista de correos es apenas el comienzo. También estamos en Facebook:
